Does Cream always help and what if it doesn't help?

The cream is designed to help with bioenergetic treatments. It has been shown to give excellent results even when used alone, without combining with treatments. In severe forms of injuries or diseases (usually long-term diseases), it should be borne in mind that the best results are still achieved by combining bioenergetic treatment and cream. Most often, the results are felt immediately after applying the cream. But there are also people, and diseases, which require longer treatment with cream. This is especially the case with severe, usually long-term health problems. Then combining the cream with bioenergetic treatment is necessary. In these cases, it is recommended that you attend one to two Omerović remote bioenergy treatments, whether the treatments are paid or free. For this, remote bioenergy treatments are not available for a limited number of people. These paid treatments are every Monday, Wednesday and Saturday at 8 p.m. You can find out more at <https://omerovic.eu/grupni-tretmani/> and for individual treatments at <https://omerovic.eu/proizvod/tretman-bioenergijom-na-daljину-poјedinacni-2/> while free treatments are occasional. You can find information about free treatments at www.omerovic.eu and on the fb page Omerović-bioenergija. If you only use the Cream for one day for your problem, it might be better not to use it at all. Because, it is unlikely that you will solve your problem with just one day of applying the Cream to a painful or injured place. Admittedly, there are some, but they are very rare.

Who can't Cream help?

People with autoimmune diseases should not expect help from treatments or creams alone or in combination. People who were born with certain deformities should also not count on the help of treatments or creams. Likewise, people who had a small stroke or some trauma due to which their central or peripheral nervous system is damaged cannot count on improving their health condition either by using creams or bioenergetic treatments. If in doubt, whether the cream can help you and whether it is recommended to use it for the health problem you have, feel free to contact us with a message on the messenger from the fb page Omerović-bioenergija.
